

### Raft-associated TRAPs

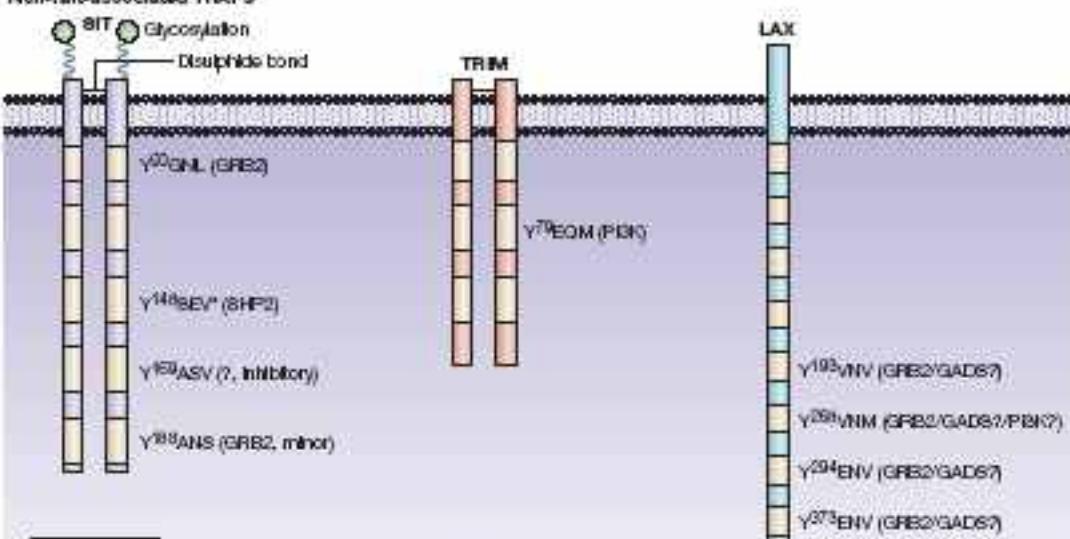

38–39 kDa  
Expressed by T cells,  
pro-B cells, NK cells,  
mast cells and platelets

68–85 kDa  
Ubiquitous expression

39 kDa  
Expressed by B cells,  
NK cells, mast cells  
and macrophages

31 kDa  
Expressed  
by T cells

### Non-raft-associated TRAPs

Monomer  
30–40 kDa  
Expressed  
by T cells  
and B cells

Monomer  
30 kDa  
Expressed  
by T cells

70 kDa  
Expressed  
by T cells  
and B cells

Figure 2 | The transmembrane adaptor proteins. So far, seven transmembrane adaptor proteins (TRAPs) have been identified.
